## Dialogue with TOPPER REID

- Trends in the USAmerican Church
- The Church and the Waves of Change

For all Educational Staff—Invite your pastor or another guest!

Topper Reid  
writes:

Both of these  
topics deal with  
the state of the  
church and what  
we need to be

doing to prepare for the future. The  
**trends** are actual trends I see as I  
travel across the country and work  
with churches on a daily basis....

some are good and some are revealingly bad.

Understanding our culture and what is taking place around us can help us prepare to make the **changes needed** to be prepared for tomorrow. We live in a constant world of change. Churches cannot shy away from change. There are three choices churches make regarding change...only one of these is the correct choice! I look forward to my trip up to Topeka in April, my first ever trip to Topeka!

**Topper Reid** is a speaker and consultant in both state and national Sunday School and Church Growth seminars, served as Minister of Education in Southern Baptist churches for 37 years, and currently is Director of Church Development for MG&A in Birmingham, AL.
